WHAT IS YOGA THERAPY

Yoga Therapy is a holistic and therapeutic application of Yoga and Ayurveda. It offers a unique perspective on health and healing distinct from the western allopathic model. The Yoga Therapy approach is based on the integration of body, mind and spirit through an experiential connection to the source of life. The entire life journey is a healing process of reunion with nature, self, other people, and spirit. A specific program is designed based on multi-dimensional principles and understandings of Yoga and Ayurveda that is specific for you and your individual needs.

Whether its structural alignment, movement without pain, developing strength, flexibility, relaxation, yogic breathing, relaxation techniques, or creating your own safe, home practice, sessions are tailored to meet your goals and needs. As we tap into your body's inner wisdom, your practice will be modified, and the plan will change along with your changing needs.

Most yoga programs take approximately **10-12 weeks** to teach you the necessary body postures and sequences, yogic breathing, relaxation techniques, as well as other yogic tools such as chanting mantras, hand mudras, chakra energy work, and guided visualizations that may be beneficial.

Sometimes we all get too busy to keep up with our good intentions. I can return to help you maintain your progress. Weekly, monthly, semi-annual, and annual sessions are available to keep your home practice new and fresh.

FEE SCHEDULE

- 1) Initial phone consult to get to know one another and your goals.
- 2) I will e-mail a more formal questionnaire along with waiver to sign with our agreed schedule for future sessions.
- 3) First meeting with client is casual conversation which takes approximately 30 minutes. This is followed by a 60 min physical assessment and simple yogic tools will be suggested.
- 4) Yoga Therapy has 3 basic principles – Assessment, Adaptation & Relationship. After our initial meeting and assessment, I will provide a practice that meets your individual, multi-dimensional needs. This practice relies on developing a rapport and a connection between the two of us so that I may adapt an appropriate practice for you, based on your condition and goals.
- 5) At the end of our contract sessions, I will provide you (the client) with a list of the yoga tools to continue as a home practice.

Initial Assessment

\$90 / hour

Your yoga journey begins with a New Client Questionnaire and an in-depth personal consultation. Sessions begin with a postural evaluation, constitutional and conditional assessment. I will evaluate your current situation, determine the source of your challenges, gain an understanding of your habits, and discuss your goals. Together we will find the appropriate yogic tools that fit your needs. This in-depth assessment usually takes about 90 min.

Private Sessions

Yoga is a complementary healing modality typically working on a private, one-on-one basis, so that a person's individual situation and context can be understood and specifically addressed.

During private yoga therapy sessions, you will learn how to work in a loving and compassionate way to restore your health on every level. A personalized program of postures, breathing exercises and relaxation techniques is specifically designed to help restore peace and balance in your life. Yoga has been thoroughly researched and found to be effective for a wide variety of health issues.

Travel time is complimentary up to 30 miles each way. Otherwise, it is \$90 / hour if more than a 30 min drive.

Payment will be due after each session. Any returned check will be charged a \$30 service fee.

* In the Privacy of Your Own Home \$75 / hour

* In My Home Yoga Studio \$60 / hour

Packages of multiple sessions are also available at a discounted rate (5% discount) and are payable upon initial assessment. Packages are typically 12-week programs in your home or my home studio.

Cancellation Policy: Please notify me by telephone 24 hours in advance if you need to reschedule; otherwise, you will be charged for the session.

Additional Services

Semi-Private Sessions can be shared between 3-4 students for additional savings.

* Group Sessions / Yoga Party \$15 / person

* Corporate Yoga \$90 / hour

Speaking Engagements

Yoga Therapy is an interesting topic and something that benefits everyone.

HERE'S WHAT YOU CAN EXPECT FROM ME

- ❖ I will be on time. If I'm not your session is free!
- ❖ It is not within my scope of practice to diagnose you or recommend medication. (Please see your physician if you have any questions.)
- ❖ I will evaluate your condition and current capabilities on all dimensions (physical, breath, mental, emotional, and spiritual state).
- ❖ I will create a yoga program that respects those capabilities, while at the same time bringing the needed changes to body, mind, and emotional state. This is not easy, and it happens over a number of visits.
- ❖ 4 weekly visits are required for new students to develop a personal home practice that they are comfortable with. Your commitment to 10-12 weeks will have the most beneficial impact in learning the necessary yogic tools for long-term wellness.
- ❖ Each session is tailored to your individual needs. It is your experience in the present moment that will guide the pace and flow of the session.
- ❖ I may occasionally use hands-on assistance to help you move into a pose, to help you find your center of balance, support you in finding a deeper expression of the pose, or for your own safety. I will ask for your permission to do so. If you prefer not be touched, just let me know.
- ❖ I am not here to "fix" you but instead support you to learn to read your body's messages and invite you to experience and understand your own inner knowledge.
- ❖ I will keep your personal information confidential. I follow the Yoga Alliance and IAYT Code of Ethics.
- ❖ I am fully insured.

HERE'S WHAT I EXPECT FROM YOU

- ❖ No experience of yoga is required, nor do you need to be flexible.
- ❖ To come with an open mind...and leave with an open heart.
- ❖ Know your limits. The rewards of yoga outweigh the potential physical risks as long as you take caution. Yoga injuries are most commonly caused by overzealousness, unrealistic expectations, poor technique, and unknown pre-existing conditions.
- ❖ When you listen to your body's wisdom, it will reveal its story to you.
- ❖ If you are late, the session will not be extended to make up the time unless I do not have a client following your session.
- ❖ Please notify me by telephone 24 hours in advance if you need to reschedule.
- ❖ I am customarily paid at the end of each session. I accept cash, checks, and all major credit cards.
- ❖ If you are delighted with my services, please refer me to your friends, family, neighbors, and colleagues!

THANK YOU!!!

Thanks for filling out this form! It will make the evaluation process much more efficient. It's best if you email it to me before our session, but you can also give it to me when we get together. This form is always being improved and refined, so if you have any suggestions for changes to it, please let me know.

I'm looking forward to working with you.
